## ***“A Fathers Perspective!”***

EJ is the father of seven children and understands some of the difficulties of trying to prepare for a family photo session. In reality, an enjoyable portrait session is a cooperative effort. It requires preparation on your part and on my part. Many times, the hard work required to prepare your family can be undone by long delays, an errant cookie, or another full diaper. Sometimes things are made more difficult because of being in unfamiliar surroundings. By having your own portrait party in a location of your choice together with family and friends, you can have a social event that is really a lot of fun.

## ***“Get it your way!”***

To sum it up, that really is our goal: to provide a portrait party that you can customize and enjoy with your family and friends. You may want a sports theme, a baby theme, a costume theme or no theme. The point is that you now have the opportunity to plan it your way.

## ***Conclusion***

If you've read this far, you must be a little bit interested in this unique approach to family photography. You're probably wondering what a session like this will cost so go ahead and check-out the included information, which has all of our pricing information and frequently asked questions.

Photographically yours,

E J Abood
